New Business

1. Transportation Update

Dr. Barile shared potential busing tiers and options with the New School Building and the potential change to start times. The committee discussed the pros and cons of the various options. There will be additional costs to transportation as a result of combining the two elementary schools and adding the fifth grade. The committee favors a two tiered system which would have the middle school and high school beginning at the same time and the new elementary school starting later. Dr. Barile will follow up with the bus company to investigate a more firm cost differential among the options.

2. Communication Plan

The committee reviewed and revised the draft Executive Summary. Jen will make final revisions and edits and then draft a more comprehensive presentation for the Board. The committee will review and revise the presentation at the next meeting and plans to present their recommendation to the Board during a June 2020 meeting.

The meeting was adjourned at 6:05.

The next meeting will be held on Tuesday, May 12 at 4:30 pm.
